

RANGE OF ELECTRIC SOLUTIONS FOR L CATEGORY VEHICLES

RESOLVE FINAL EVENT: 3 ELECTRIC PROTOTYPES UNVEILED

The three electric tilting vehicle demonstrators designed and developed in the project have been presented at the RESOLVE final event in Brussels on April 25th 2018.

FOR IMMEDIATE RELEASE – WEDNESDAY 25th APRIL 2018

About 80 enthusiast participants from all over the world joined the RESOLVE Final Event in Brussels on 25 April 2018.

Opened by the Project Officer Georgios Charampolous and by Antonio Perlot, Secretary General of ACEM, the conference on main results of the project encountered a very positive feedback from an interested audience and hosted a lively debate on challenges and opportunities for electric mobility and future perspectives, involving other projects in the Green Vehicle area: ELVITEN, WEEVIL, SILVERSTREAM, ESPRIT.

The two vehicle demonstrators developed in the project and an additional three-wheeler demonstrator named D3 have been showcased and received a very positive feedback from an interested audience.

Furthermore a comprehensive exhibition helped the audience to touch project results: on achievements in the different project areas, videos on vehicles supported the Consortium to give an exhaustive and exciting overview of achievements of RESOLVE.

RESOLVE project

Title: Range of Electric SOLUTIONS for L-category VEHICLES

Call: H2020-GV-2014

Topic: GV-5-2014 – Electric two-wheelers and new ultra-light vehicle concepts

Start: 1st May 2015

End: 30th April 2018

Funding: 6.844.027 euros

Grant agreement n. 653511

RESOLVE objectives are the development of elements for powertrain, chassis and driver wellbeing/information/experience that can be applied to a wide range of Electric L-category Vehicles (ELVs), from two-wheelers up to light quadricycles.

To achieve these objectives, RESOLVE Consortium has devoted its efforts to the design and construction of three electric tilting vehicle demonstrators (2 fourwheelers and 1 three-wheeler).

The RESOLVE project (Range of Electric SOLUTIONS for L-category VEHICLES) is made of 14 partners: Piaggio Group (coordinator), KTM, AIT-Austrian Institute of Technology, Bosch, IDIADA, Kiska, Marelli, Wamtechnik, RE:Lab, Ricardo and the universities of Florence, Pisa, Prague and Warwick.

RESOLVE has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 653511.
